

Minute to Win It TH Challenge

Purpose of the TH Challenge

So...your hard-working child has mastered the TH sound in isolation, syllables, words, sentences, and read-aloud paragraphs, BUT....carryover to everyday speech is NOT HAPPENING!

This is just the thing to help your student span the leap into habit-forming success!

The Rules

Minute to Win It Th Challenge is a strategic activity designed to help students develop consistent articulation of their speech sounds through rapid practice and repetition.

1

Have your child practice saying each word correctly at a normal pace across or down the columns. Once they can do so three times in a row, they're ready for the challenge.

2

Get a timer ready and set it to count down for 1 minute. Decide how you'll track mistakes and the number of chart rounds completed.

3

Have your child say each word in the columns as quickly as they can. Start the timer when they say the first word.

4

They repeat the words from the beginning, over and over, until time runs out. When the timer stops, count how many words were said correctly in one minute.

5

Minute to Win It Goal:
100 words correct in 1 minute!
Winning is also achieved by the child improving their personal best each time!

Minute to Win It TH Challenge

TH Initial Words

Set the timer for one minute. When you complete the entire list, simply start again at the beginning. Remember, accuracy counts!

than	thank	that	the	their
them	then	there	these	they
thing	think	this	those	though
thought	thaw	thick	thin	third

Hi! I am the Peggy behind Peggy's Speech Therapy. I am passionate about helping kids discover their own correct speech sounds. I have helped hundreds of kids and teens do so during my career. This strategy has proven to help many of those kiddos bridge the gap from concentrated drills to automaticity. I happily share this strategy to help you do the same with your kiddos!
